CLOUDFLARE

Figure 1: Magic Quadrant for Web Application and API Protection

Source: Gartner (August 2022)

Cloudflare named a LEADER in the 2022 Gartner® Magic Quadrant™ for WAAP report.

We believe our recognition validates Cloudflare's ability to drive application and API success due to our WAAP capabilities that:

- Protect against emerging threats faster for a stronger security posture.
- More tightly integrate WAAP capabilities into a single platform.
- Deliver powerful ease of use and deployment to take burdens of off teams.
- Use our vast global network and platform to back our products with powerful threat intelligence, incredible performance and extend access to our Zero Trust security portfolio.
